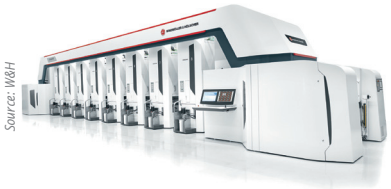
Special section Digital Printing today

Flexo+Tief Druck

Our editorial staff is preparing the following focus topics:

Is 7C possible in gravure printing in practice?



Source: W&H

Frequent colour changes and many special colours are a major cost driver in package printing. While in flexo printing 7C has established for certain applications, this technique of colour separation in gravure printing has not yet taken hold.

Gravure printing forms for high quality package printing

There are numerous features and promising developments in the production of gravure forms, whose intelligent interaction can elevate package printing to an even higher level of quality. In this case, economic efficiency, high pressure stability and reproducibility are given.

Sleeve and adapter systems for flexo printing

Source: Pronexos

➜ **The trend is towards carbon fiber**
A new scientific study shows the benefits of carbon fiber components for use in the printing industry. Professor Lutz Engisch from the University of Applied Sciences Leipzig presents the results of his research.

Specific doctor blades adapted to applications in flexo and gravure printing

➜ **Wear-resistant doctor blades for white printing**
Since white colour is an important element in many packaging designs, the process parameters as well as the corresponding consumables, such as the doctor blades, have to be adapted to the specific conditions of white printing.

Special Digital Printing *today*

Special section Digital Printing today

➜ **Digital printing and packaging films – Does this fit together?**
While digital printing is advancing in some segments of label and package printing, it is almost irrelevant in the packaging film sector.
What are the causes for this?

➜ **Current state of development in digital printing**
Several machine manufacturers are reporting on the launch of new digital printing systems in corrugated board and folding carton printing. In addition, advanced printhead technology supports the development of digital entry-level models for package printing.
