1-2020 (February)

Special Section

Extrusion & Converting

# Flexo+Tief Druck

Our editorial staff is preparing the following focus topics:

## drupa Countdown Part 1: Package Printing – Substrates – Sustainability/Ecology – Converting

Sustainability and Ecology, Economy and Digitalization: The entire packaging sector is currently in the middle of a major structural change. What new solutions and inspirational ideas does drupa present as the world's leading trade fair for the global printing and media industry, so that package printing can successfully master the resulting challenges? In a three-part series, starting with issue 1/2020 (February) of Flexo+Tief-Druck, we will focus on the various topics and try to give answers.

## Survey among package printers and prospects in mega fair year 2020

→ **How is the package printing market developing?**

→ **Which trends are emerging in the packaging industry?**

Next year, two global mega fairs will take place in Dusseldorf, Germany: the Interpack and the drupa. This is reason enough for our editors to start the year 2020 with a survey among package printers in the first issue of Flexo+Tief-Druck.

## new section „Ecology & Sustainability“

Ecology and sustainability are crucial for the future of the packaging industry. How „green“ can or must packaging be? Is flexible plastic packaging less ecological than paper? Which legal requirements have to be met? How must the printing process change in order to produce sustainably „green packaging“? With these and other urgent questions, Flexo+Tief-Druck will focus intensively on the new section „Ecology & Sustainability“ from issue 1/2020 (February) and try to provide practical answers.

→ **Ecology in the pressroom: Cleaning systems, cleaning agents, ink disposal, solvent recycling, exhaust air cleaning**

For the cleaning of printing unit parts, printing plates or anilox rollers are offered different cleaning concepts. Not only a good cleaning result counts, but also environmental compatibility, efficiency and the integration into the logistics of the printing company.

→ **Recycling of packaging, waste disposal**

**Publication date**  
13 February 2020

**Editorial deadline**  
17 January 2020

**Advertising closing**  
24 January 2020

**Flexo+Tief-Druck 1-2020 (February) will appear in the run-up to this important industry event:**

**Inno-Meeting „Handeln“**  
Osnabrück/FRG  
13–14 February 2020

**Flexo Tief Druck** Leading German-language technical magazine for package printing and converting industries

**Flexo Tief Druck** Current product and industry news

**Flexo Tief Druck** Indispensable marketing platform for all suppliers in package printing

**Flexo Tief Druck** Since 2019 with the special **Extrusion & Converting** – all about packaging films

**Flexo Tief Druck** The special section **Digital Printing today** focuses on digital package printing

**Flexo Tief Druck** 6 x per year as a print edition, always up to date on **flexotiefdruck.de**

Issue

1-2020 (February)

Special Section

Extrusion & Converting

# Flexo+Tief Druck

## Consistent print quality

- 7c print in gravure printing
- Inspection and control systems
- Measuring systems
- Colour viscosity measurement
- Proofing, print approval

Web viewing, web guiding control, web edge control,  
web tension control of different substrates

Inks and coatings for direct contact with food/DFC inks

Special

„Extrusion & Converting“

Special Section

Extrusion & Converting

- Extrusion – packaging films – recyclates
- Paper substrates for flexible packaging with specific barrier properties
- Coating and metallisation
- Lamination: the right tools for a stress-free adhesive application
- Roll finishing – cutting machines
